

"Delta Down" created by artist Dinah Bowman

**PROTECT OUR ESTUARIES & DELTAS**

**ESTUARIES**, where rivers meet the sea, are the most productive environments on earth.

**ESTUARIES** and **DELTAS** provide a wealth of food for all wildlife, particularly fishes and birds.

**ESTUARIES** and **DELTAS** contain marsh habitats, which are nursery grounds for juvenile fish and shellfish.

**ESTUARIES** and **DELTAS** provide a buffer for the coast during storms by storing water and combating erosion.

# EARTH DAY-BAY DAY

APRIL 23, 2005 • COLE PARK  
CORPUS CHRISTI, TEXAS

Protecting Our Bays and Estuaries

Dedicated to protecting our bays and estuaries
