

## Oso Creek Steering Committee: Priorities, Key Elements, Guiding Design Principles

### Priority Elements:

1. Buffers
2. Riparian zone improvements
3. Vegetation
4. Trails (including Hike & Bike and Nature Trails)
5. Regional Parks

### Key Design Elements

1. Oso Parkway trails on both sides of the creek, including hike and bike, nature enjoyment, alternative transportation, and equestrian amenities
2. Large vegetated buffers between development and the creek/bay
3. Drainage & bio-filtering elements
4. Multi-purpose stormwater system including
5. Barney Davis Sanctuary
6. Regional Parks
7. Riparian habitat improvements
8. Managed water access points
9. Outdoor education venues
10. Water trails

### Guiding Design Principles

1. Wildlife protection
2. Appropriate and environmentally sensitive residential development
3. Research opportunities
4. Themes for the different parks
5. Improved water quality
6. Xeriscaped landscapes
7. No use of invasive species in landscaping
